PROFILE

Senior C++ engineer with 9+ years building production systems in performance-critical environments. Strong experience designing scalable, reliable systems and working closely with quants and traders to deliver real-time analytics and trading capabilities. Proven track record of owning systems end-to-end, from architecture and implementation to deployment and production support.

WORK EXPERIENCE

DEC 2022 – NOV 2025 (3 YRS)

Alipes ApS (Denmark)

Research Infrastructure Engineer

- Designed and delivered high-performance C++ systems supporting real-time trading and quantitative models
- Owned systems end-to-end: architecture, implementation, optimization, and production reliability
- Improved scalability and determinism through data structures, memory layout, and threading models
- Collaborated closely with quants, traders, and engineers to translate models into production systems
- Contributed to internal tooling and workflows improving development and deployment efficiency

DEC 2021 – NOV 2022 (1 YR)

CLAAS E-Systems Denmark

C++ Software Developer

- Developed and modernized embedded C++ systems on Linux for real-time applications
- Improved system reliability and maintainability through refactoring and testing practices

AUG 2018 – SEP 2021 (3 YRS 1 MO)

Synopsys Denmark ApS

Senior R&D Engineer

- Led performance optimization of large-scale C++ computational engines (up to 2x improvement)
- Drove profiling, benchmarking, and performance regression analysis
- Improved robustness and maintainability of production systems used in EDA workflows

FEB 2016 – JULY 2018 (2 YRS 6 MOS)

Teklatech A/S (Denmark)

Software Development Engineer

- Built and optimized numerical models for complex engineering systems
- Focused on correctness, scalability, and performance

CORE SKILLS

LANGUAGES	C++20/23, Python
SYSTEMS	Linux, Docker
ENGINEERING	System design, multithreading APIs, performance optimization
PRACTICES	CI/CD, testing, code reviews observability, benchmarking
TOOLS	Git, CMake Jenkins, TeamCity

EDUCATION

2012 – 2015	Ph.D. in Math & Computer Science <i>Technical University of Denmark</i>
2005 – 2009	M.Sc. in Algebra & Number Theory <i>Vietnam National University HCM</i>
2000 – 2004	B.Sc. in Math & Computer Science <i>Vietnam National University HCM</i>

LANGUAGES

ENGLISH	Fluent
DANISH	Limited working proficiency
VIETNAMESE	Native
